TRIP EXPERIENCES

旅途经历

Leverage rich trip context such as pickup/dropoff location and ETA to build innovative new app experiences for users while they're on a trip with Uber.

[Get Started](#)

使用丰富的行程信息，例如接载地、目的地地址和预计到达时间来创建一个创新的全新的Uber体验。

RIDE REQUEST BUTTONS

行程请求按钮

Quickly add the Uber Ride Request button to your iOS or Android app to get your users moving with a quick and simple one-tap deep link into the Uber App.

快速将Uber行程请求按钮集成到你的iOS或者Android应用中来，让你的用户可以很方便快捷地通过一次点击连链接跳转到Uber 应用。

SDKS

SDK

Rapidly integrate the full power of the Uber API into your services using our open source SDKs.

使用开源的SDK，可以迅速将全功能的Uber接口API体系集成到你的服务当中。

DEEP LINKING

深度链接

Directly launch the Uber app from your app using your own custom logic and visual treatments.

直接从你的应用当中，使用你自有的用户逻辑和视觉设计，直接启动Uber应用，

APIS

API

Need to go even deeper? The Rides API gives you direct access to the REST APIs that power our SDKs and Buttons.

想了解更深入？行程请求API给你直接访问供SDK和按钮使用的REST API的访问权限。

AFFILIATE PROGRAM

合作伙伴计划

Earn \$5 for every new U.S. rider you send to Uber with your Ride Request Button, Deep link or API integration.

每当通过行程请求按钮、深度链接或者是API集成等新增一个美国乘客时，赢得5美元的奖励，
